## RAF Museum & NADFAS

### Glass Poppies Project

The Royal Air Force Museum Cosford, supported by NADFAS, (The National Association of Decorative & Fine Arts Societies,) approached us to work on an Arts project to engage local primary school pupils with the concept of Remembrance.

The children have worked with us to create a set of stunning glass poppies that will form part of the Museum's 'First World War in the Air' exhibition.

As part of the project the children will focus on WW1 Royal Flying Corps and Royal Air Force pilots and will learn about the lives of individual pilots.

As you can imagine, the children had a wonderful time blowing colour bubbles to create the poppies, which we then used to make shards to form the petals and Wendy had the painstaking role of carefully creating and firing each unique poppy, which are on display at the RAF Museum. Do pop in and have a look if you are in the area.

## The Chronophage Clock

In our previous newsletter, many of you were fascinated to read about the glass eyes that we were commissioned to produce, for a large 3D titanium

creature that formed a chronophage clock. This amazing clock is now installed in the US complete with our glass eyes even if a little scary!!

## New Website [www.cameo.glass](http://www.cameo.glass)

We are pleased to promote the launch of our new website, which is in addition to our current website – [www.jhstudioglass.com](http://www.jhstudioglass.com). The new site predominately features a comprehensive catalogue of our cameo carved techniques & designs to assist in helping collectors to find elements from different examples that helps them to create their own commission. Please keep checking for news updates, new 'one off' pieces & designs & placing general orders. Please have a look and let us know what you think...

## Christian Dior Couture

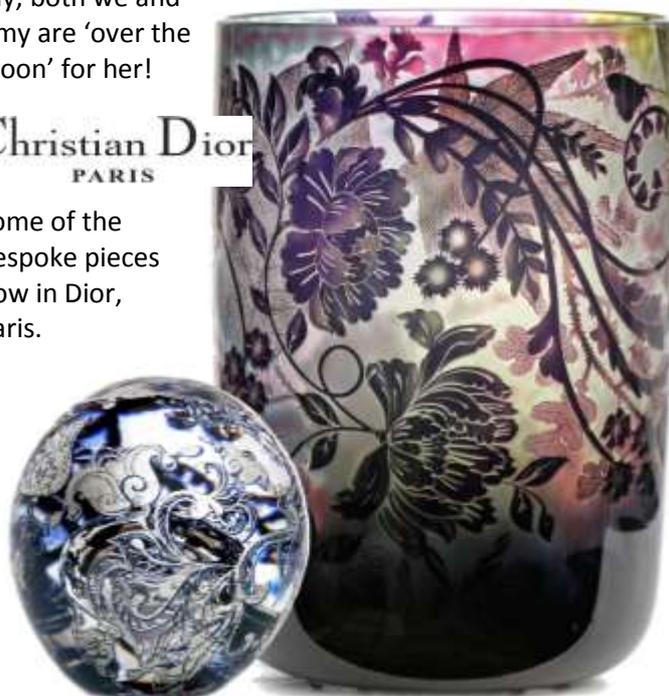

### Bespoke Designs

We are absolutely delighted to have been approached by Dior in Paris to design bespoke pieces from both our cameo and studio techniques, for their flagship store in Paris and one of the designs selected was Amy's 'Giraffe' design from her new 'Savannah' collection! Needless to say, both we and Amy are 'over the moon' for her!
