Summer 2005

Dear collector,

Welcome to you all and to our new members' who have joined us during the spring.

It is hard to believe that we are already more than half way through the year and we fully understand the meaning of 'time waits for no one!' With only a couple of weeks remaining before

our 'open day' we are very busy creating new designs and techniques.

Several of these will be completed for the 'open day' and we will have photographs available as soon as possible.

Reheat Treescape TRIAL

2005 Limited Editions

Due to your ever increasing requests for cameo and grä al 'trials' it is quite hard to find the right balance in producing both 'trials' and editions as we have collectors' who like to purchase both. Our designs and cameo blanks are also becoming increasingly more complicated and are taking Jonathan twice as long to carve. It also becomes harder to make editions similar because of the complicated techniques that we use.

We also do not wish to increase our delivery times. Therefore, we have decided to produce only eight limited editions each year and they will be

released in pairs at intervals throughout the year. Trials will continue to be released when available. Two new editions are included and we hope you will find this new system beneficial.

Sunset Cranes TRIAL

Columbine Vase and Paperweight.

Just to update you regarding the production of these pieces.

We will commence production during the last week of August and you will hear from us no later than the end of September to arrange delivery.

'Meadow' 2005-2006 Collectors' Club Design.

The completion of one members' piece heralds the arrival of our new design 'Meadow'. Our continued interest and fascination with trees and landscapes forms this new creation. The trees and foliage are highlighted in silver leaf on a hyacinth core with emerald green, opalin and gold ruby. We hope you like this very pretty design and as always we have tried to make the price just as attractive!
