JH Collectors Club Summer 2011

Dear Collector

Hello once again from the JHSG team and we hope you are all managing to catch a glimpse of summer either at home or abroad. We have of course been keeping busy and bring you all our latest news.

10 YEAR SOUVENIR

To commemorate 10 years of JHSG we have decided to produce a

collection of some of our most memorable events in the form of a keepsake souvenir pamphlet. As you can image, quite a lot has happened over the last 10 years and making our selection of what to include was not an easy task and we hope you enjoy this little trip down memory lane as we did!

FORTNUM & MASON – Teapots to Tapestries Exhibition Update.

Thank you to all of you who managed to visit the exhibition and for your enquiries regarding several of the pieces that were displayed. Now that the exhibition has ended F&M have requested to keep the balance of the pieces, although we are trying to negotiate the return of some of them and replace them with new ones. We do have details of your enquiries regarding specific pieces and as promised, we will get in touch if they become available for resale via ourselves as soon as possible. If anyone else

wishes to register interest in any of the pieces please let us know.

BRITISH MUSEUM – Ancient Book of the Dead – Journey Through The Afterlife.

Now that this exhibition has ended the large gräal vase that was commissioned to commemorate the exhibition and displayed throughout the duration, has now been returned and is available to purchase. As so many of you have expressed an interest in this 'one of a kind' piece, we felt that the fairest thing would be to put all of your names in the vase and the lucky collector will be picked on the 31st October. Please register your interest no later 20th October to be entered into the draw. 20cm £850.

Fish plate TRIAL

NEW 'MONET' Studio Collection

Following on from our original 'Monet' commission from the National Gallery, we are delighted to introduce our new design inspired by Claude Monet "The Bridge over the Water Lily pond" 1905.

Keeping in touch with interiors & lifestyle, this design is stunning on both smaller & larger shapes giving the flexibility of a delightful gift or a stunning centrepiece in any home.

Initially the design is available in two core colours, opal or teal and the 3D design is created with internal multi colour trails & 24ct

gold leaf. We then 'case' the gather in clear glass and skilfully apply a multi chip mix of silver bearing coloured shards that cascade down the form. Finally the surface is iridized giving each piece a wonderful iridescent surface. Full details are attached and please note that your 15% collectors discount is available off the listed prices.

MAKE YOUR OWN PAPERWEIGHT
